Accomplishments

- Created an accounting and treasury operation from scratch (at Caradigm, a GE/MSFT JV) implementing treasury, payroll, general ledger, and financial reporting.
- Spearheaded expansion of banking infrastructure globally (at Coinstar) and enabled new fintech products to launch in manners acceptable to the company's more risk averse mega-banks.
- Partnered with IT (at Clearwire) to overhaul a suboptimal implementation of its Oracle procurement system, then gained support of CEO and CFO in a company-wide campaign to adopt new procurement behaviors, tripling efficiencies in procurement and AP, and speeding business process.
- Developed from scratch a liquidity management model (at Coinstar) that brought about the most efficient use of cash in the company's 30-year history.
- Developed from scratch a currency swap management system (at GE) to manage sophisticated hedge positions when no system on the market could do it.
- Created financial frameworks for analyzing viability of multiple potential new product offerings (at Coinstar).
- Instilled cultures of high ethics, integrity and focus on controllership. Cleared a Significant Deficiency in SEC reporting controls (at Clearwire) within three months of arriving.
- Realized 2% of EBITDA cost-savings (at Coinstar) by better coordinating armored services across seventy locations with dozens of bank endpoints.
