Accomplishments

- Partnered with organizational leaders, including the Board of Trustees, to guide strategic and business planning for \$35M non-profit research institute.
- Oversaw post-award grant management, fund accounting and annual Single Audit for approximately 75 federal and non-federal grants.
- Created multi-year revenue forecasting model, generating new insight into success drivers and resulting in the development and monitoring of predictive performance metrics.
- Consolidated multiple financial reports into an one-page departmental dashboard, increasing lead time for operational problem solving and enabling performance monitoring at leadership level.
- Streamlined accounting processes and developed new tools to automate data input, reducing month end close time by three days.
