Accomplishments

- Led a large cross functional team of accounting, IT, sales, operations and software engineers to design and configure a new revenue management software (Oracle & Softrax). Modified business processes, and wrote technical position papers to support ASC 606 accounting standard.
- Presented monthly audit results, business risks and issues to the Audit Committee and Board of Directors.
- Implemented a key reports testing process to ensure the integrity of sub-ledger and analytical reports relied upon by the company for financial reporting and business decisions.
- Completed various month end duties as needed, including reconciliation of prepaid accounts, accounts payable and accrual accounts, inventory, equity, restructuring accrual, goodwill, and intangibles.
- Managed international accounting & IT departments of 25 team members located in Seattle, Quebec, Paris, and Seoul.
- Served as a key leader for the expansion of Zetec into Korea, China and equipment rental market, which included the formation of new legal and business entities (increasing the company's net income by 10%).

Education and Certifications

- Bachelor of Arts in Business with a concentration in Accounting, University of Washington
- Certified Public Accountant, State of Washington
