Accomplishments

- Planned the competition of a \$29B leveraged buy-out, focusing on cash flow and debt covenants (\$22B) to optimize cash flexibility.
- Developed and implemented financial processes to add accountability for planning and transparency for management reporting.
- Relocated IT Finance department from Maryland to Corporate Headquarters in Colorado and improved service to CIO through streamlined reporting and new processes.
- Created global driver-based capital planning (\$500M).
- Developed enterprise long-range plans to meet strategic targets and \$11B annual budget.
- Determined divestiture tax split and debt structure for a spin-off company.
- Led monthly accounting close for a multinational \$40M corporation, including audit preparation and SEC reporting.
- Built a start-up non-profit organization to be financially sound by creating accounting controls, a payroll process and risk management, and funding operations through foundation grants.

Licenses / Education

- MBA and Master of Science (Finance), University of Colorado, Denver
- Bachelor of Arts, Telecommunications and Political Science, Indiana University
