

Douglas Sanders

Qualifications Summary

Doug is an international life science finance executive with 14 years living and working in Europe, and over 30 years as a C-suite executive. He has significant experience in the pharmaceutical, diagnostics, medical device, and consumer health industries for both large companies and start-ups. Doug's strategic, global, and practical view when approaching business challenges allows him to quickly understand complex science and internal business processes and issues in order to model, influence, lead, reengineer, or improve the financial performance of a company.
