Accomplishments

- Converted eight years of Array Health's historical financial statements from cash basis to GAAP/accrual basis accounting, in preparation for the company's initial external financial audit.
- Accountable for the accounting/finance function of seven business entities, including an S-Corporation, four domestic LLC's, and two foreign LLC's at Trans-Net Inc.
- While at DocuSign, negotiated multimillion dollar debt facilities with a local bank enabling the company to bridge to its next round of equity financing. Attained key terms including: elimination of MAC default clause, no prepayment penalty, no financial covenants, and no commitment fees.
- Managed all Applied Microsystems external relationships including banking, investments, legal, audit and tax, insurance, and 401(k)/stock option administrators.
- While at eCash Technologies, developed and implemented cost reduction measures reducing monthly operating expenses by 50% resulting in the successful placement of additional equity financing.
- Implemented accounting and financial reporting software at multiple clients, including Microsoft Dynamics Great Plains, FRx, and many payroll systems such as GL interface for Dynamics GP/QuickBooks.

Education and Certifications

- Bachelor of Arts, Business Administration – Accounting, University of Washington
- Certified Public Accountant, State of Washington
