Accomplishments

- Member of Executive Leadership Team at multiple organizations with responsibility for strategic planning, goal achievement, including profit targets, and cross-functional team planning for execution of various change management initiatives.
- Built the financial and operational reporting structure at several organizations to facilitate accounting control, and monitoring of operational achievement of objectives.
- Managed the Cash Forecast and usage process, and Line-of-Credit for several companies, growing at between 25%-50% annually, enhancing the banking relationships and reporting requirements. Changed several processes that increased cash retention and increased the company credit rating.
- Created KPI's and metrics to track monthly both operational and financial performance, and to review with senior leadership and operational managers.
- Partnered and consulted weekly with operational managers to review the impacts of decisions on financial target achievement, as well as the “pinch-points” that need additional attention or resources.
- Successfully guided two companies through their first ever audits, with no material issues.
- Experience with operations roles including IT, HR, Inventory management, and revenue recognition.
- Reviewed GPM on various custom jobs with operations and sales, to highlight areas of improvement to maintain or increase GPM per bidding process on GPM targets for the job(s) and the impact on the company as a whole.
- Implemented ABC perpetual inventory counting system which decreased leakage from 10% to less than 0.5%.
- Spearheaded the accounting “cleanup” initiative at several companies, to keep the books consistent, timely, and transparent, and financial results predictable. Eliminated surprises.

Licenses / Education

- CMA – Certified Management Accountant
- MBA – Portland State University
- Bachelor of Science – Business Administration/Finance & Law
