### Accomplishments

- Key member of several IPO's (including one on the Swiss Stock Exchange), serving as a primary contact for the external auditors, legal teams and investment bankers.
- Successfully built and transitioned an accounting department from supporting a private high growth domestic company into supporting a high growth international public company that included multiple operating entities.
- Successfully implemented processes to reduce the month end closing timeline at several companies, leading to reduced closing time ranging from five days to over two weeks.
- Created processes and implemented controls within accounting departments to support an effective internal controls structure.
- Developed and implemented a monthly departmental reporting process to report budget, forecast, and actual variances.
- Led the successful completion of the annual audit of a company in advance of its initial public offering; this included coordinating review of current and prior year quarter reviews.
- Responsible for the direction and execution of a global accounting, tax and external reporting departments.
- Key member of a merger transition team which guided the transfer of information relating to various business processes to the acquiring company, minimizing business interruption pre-acquisition.

### Licenses / Education

- CPA Certification – State of Washington
- Bachelor of Business Studies - Accounting, University of Washington
