Accomplishments

- Completed purchase accounting for two complex international step acquisitions and developed the SOX compliant template used to record ongoing acquisitions.
- Designed and implemented financial models, forecasts, and budgets for Glenayre, Primex, and Safeworks.
- Key contributor on the restructuring team at Primex that separated three business units utilizing shared services into stand-alone profit centers with individual government rates.
- Designed and completed SOX 404 control documentation in ninety days with no control weaknesses at Todd Shipyards.
- Led systems implementations at Glenayre, Primex and Serepta, as well as sales and operations planning implementations at Glenayre and Primex.
- Streamlined financial reporting and strengthened internal controls at multiple entities.
- Successfully trained employees at various levels to take on new/additional responsibilities and to be more successful and valuable in their positions.
- At Rivtow, documented cost overruns resulting from building a fixed price commercial contract to Department of Defense requirements resulting in a \$3M+ award from the government without going through arbitration.

Education and Certifications

- Masters of Business Administration, Simon Fraser University
