### Accomplishments

- At multiple organizations, managed all aspects of finance and accounting including daily transactions, reporting, budgeting, and planning, asset management, payroll and banking relationships. Directly supervised up to 7 people representing over 45 team members in organizations up to \$45M in revenue.
- Reduced time in each step of the monthly close process in all CFO/Director roles, allowing for more real-time management reporting.
- Redesigned new annual budget workflow process and tools and presented to the Board of Trustees for approval, taking time and cost out of the processes in each CFO/Director role. Improved forecasting efficiency by reducing time by 30-50% and accuracy to within 95% by implementing regression analysis into the forecast process.
- Implemented first ever Board/Management Dashboards in each CFO/Director of Finance roles.
- Led the implementation of PeopleSoft, including first Procure-to-Pay process.
- Negotiated three new leases in first year with a nonprofit, reducing expense for longer term.
- Streamlined purchasing and contract review process reducing risk and cost of procurement.
- Successfully led development of new or improved ERP at multiple organizations.

### Licenses / Education

- Post-MBA Certificate in Accounting, Seattle University
- MBA, Finance/Economics/Law, Seattle University
- Bachelor of Arts, Business (Finance emphasis), University of Puget Sound
