ACCOMPLISHMENTS

- At Sonic Concepts, cleaned up years of backlogs in accounting records and redesigned Chart of Accounts within a couple of months; provided accurate and thorough costs analyses to CEO, built new quoting template to be used for generating higher profitability on new projects.
- At Sonic Concepts, turned around company finances from Net Loss to Net Profit within a quarter by driving a comprehensive cost reduction campaign across the company, from aggressive external price negotiation to systematic internal cost control.
- At Viome, established and optimized a full set of rules and procedures in the AR and AP workflow; successfully collected 100% of AR balances from customers and put in place a standardized, tighter control in vendor account setup, contract reviews and invoice payments; having saved the company operating costs in millions of dollars.
- At Viome, enforced ASC606 compliant revenue recognition and appropriate COGS analysis, enacted and reinforced corporate card/travel expense reimbursement/reporting policies, and achieved better overall internal/cost control in all financial activities.
- At Viome, supported business acquisitions and multiple rounds of private fundraising totaling \$80M+; successfully reconciled asset and liability accounts and consolidated accounting records; managed equity accounts, investor reporting and subsequent annual audits in full compliance with strict lender covenants.
- At Autel Robotics, reconciled and corrected messy accounting records and customer statements, and collected \$4M (out of \$4.6M) past due AR balances within a couple of months; co-led pre-IPO audits in the US company.
- At General Electric, completed three years of backlog reconciliation for large and complex payroll and benefits accounts within 3 months; set up a centralized bank account system that improved both cost and time efficiency in payroll distribution, and received a Special Contribution Award.
