ACCOMPLISHMENTS

- **Team Development & Empowerment:** Built collaborative, cross-functional teams across Finance, HR, IT, Inventory, and Purchasing. Focused on strengths-based leadership, cross-training, and performance coaching, resulting in a 30% increase in efficiency and improved accountability organization-wide.
- **System Implementation & Training:** Advised on ERP system selection and led full-cycle implementations across multiple platforms. Designed financial workflows, trained teams, and reduced reporting time by up to 30% while improving system adoption and data accuracy.
- **Process Streamlining & Account Cleanup:** Standardized reconciliations, cleaned up complex account structures, and redesigned workflows to accelerate month-end close and eliminate recurring errors—significantly improving accuracy and audit readiness.
- **Operational Efficiency:** Designed and implemented company-wide budgeting, costing, and reporting systems that improved coordination across departments and eliminated redundancies.
- **Financial Modeling & Strategic Insight:** Built multi-year forecasts and financial models used in ownership transitions, pricing decisions, and strategic planning, helping leadership align goals with execution.
