ACCOMPLISHMENTS

- Acting CFO for a start up in the fuel distribution business. Responsible for finance/accounting and operations oversight.
- Defined and implemented revenue recognition policies for a software development company and a central laboratory service provider for the biopharmaceutical industry.
- Proven success with system conversions including the evaluation and vetting process in selecting new systems. Responsible for mapping data from the legacy system to the new system for accounting, inventory, sales orders, purchase orders, accounts receivable, and accounts payable.
- Managed various third party audits: bank, CPA firm, and state tax agencies.
- Successfully documented and implemented accounting and operation procedures at multiple companies; improving efficiencies and aligning systems with processes and company goals.
- Implemented "Credit Risk Advisor" to manage customer credit scores along with a company credit policy to reduce bad debt and improve collection rates.
- Managed complete accounting functions for small businesses: monthly accounting close, cash management, reporting, benchmarking, business taxes, payroll, staffing, etc.

LICENSES & EDUCATION

- Bachelor of Science – Accounting – Central Washington University
